AXIS T94S01P

Outdoor protection for cabling and devices connected to Axis cameras

AXIS T94S01P Conduit Back Box is an outdoor-ready, impact resistant (IK10+) back box designed to be mounted behind a wide range of Axis network cameras. It has an ingress-protected (IP66/IP67) compartment for secure storage of connectivity devices. Examples include storing an IP-over-COAX adapter to re-use legacy cabling or a network cable coupler to bridge between rigid and flexible network cables. AXIS T94S01P enables both camera and connectivity device to be safely mounted at the same point, without need for extra cabinet installation (even directly onto junction boxes). The finished installation is both aesthetically pleasing and able to withstand challenging outdoor conditions.
